PERSONAL PROJECTS

Motion Detector [↗](#)

- Motion detector records a live video from a camera and generates a csv file and a graph which shows whenever an object was moving in the frame.

Expenses Detective [↗](#)

- Expenses Detective helps you keep track on your daily expenses. The user can enter a list of his bank accounts and his daily spendings in order to monitor them.

Connectivity Checker [↗](#)

- Connectivity Checker is command-line app that allows you to check if a list of websites is up or down. You can modify the list. When a certain website changes its connection status a sound notification will be initiated.

Image & Video Converter [↗](#)

- This is a command line application that allows the user to convert an image or a video into a desired format.
